

## Cellar's tour and wine tasting

**2 hours** tour and wine tasting on Wednesdays and Fridays

Knowing the wine of a land means learning about its traditions and its history...In the heart of Itri's rocky hills, surrounded by cork wood, visitors are always welcome in our winery.

You will be guided through a wine tasting to discover the flavors of the native vineyard with three different kinds of wine: white, red and sweet wine.

You can visit our cellar and the barrels room. We will explain you how we produce our wine step by step, from the grape to the bottle.

By going hiking through the vineyards it is possible to reach the most suggestive one located on the top of the mountain, from which you can gaze the sea and Pontine islands: an amazing experience!
